**WALKER STATEMENT ON DEATH OF MARTY STEIN**

"I am deeply saddened by the news of Marty Stein's passing. I have known Marty since I worked at the Red Cross over 15 years ago. Marty was a giant in the world of philanthropy then and remained so until his death. His tremendous enthusiasm and boundless energy were the difference between just talking about a project and actually getting it done."

"Marty's contributions of time and money have made this community a better place to live and my thoughts are with his family. He shall be sorely missed."
